ARESTIN POST-OPERATIVE INSTRUCTIONS

After administration of ARESTIN, avoid eating hard, crunchy, or sticky foods for 1 week. **Do Not** brush the treated area for a 12-hour period and **Do Not** floss or use interproximal cleaning devices in the treated area for 10 days. Brush and floss untreated teeth as usual. Although some mild to moderate sensitivity is expected during the first week after administration of ARESTIN, please call our office at 577-3935 if pain, swelling, or other problems occur.

If you have any questions, please call our office at 520-577-3935.
